

000-112

(IBM Systems Storage Sales for DS5000 v1)

Document version: 9.30.06

Important Note, Please Read Carefully

techeXams' 000-112 Exam is a comprehensive compilation of questions and answers that have been developed by our team of certified professionals. In order to prepare for the actual exam, all you need is to study the content of this exam questions. An average of approximately 10 to 15 hours should be spent to study these exam questions and you will surely pass your exam. It's our guarantee.

Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at techeXams and update 3-4 days before the scheduled exam date. Here is the procedure to get the latest version:

1. Go to <http://www.techeXams.ws/>
2. Log in the User Center
3. The latest versions of all purchased products are downloadable from here. Just click the links.

Feedback

If you find any possible improvement, then please do let us know. We are always interested in improving the quality of this product. Feedback can be send at: **customer.service@techeXams.ws**

Explanations

This product does not include explanations for all questions at the moment. If you are interested in providing explanations for this exam, please contact **customer.service@techeXams.ws**.

Question: 1

At the initial release, how many EXP810s can be attached to the DS5000?

- A. 12
- B. 14
- C. 16
- D. 32

Answer: C

Question: 2

A healthcare customer would like to maximize the capacity utilization of their DS5000 and EMC CX3-20 storage devices. Which of the following solutions should the IBM storage specialist recommend to help them better provision their storage on demand?

- A. Tivoli Storage Manager (TSM)
- B. IBM SAN Volume Controller (SVC)
- C. IBM TotalStorage Productivity Center (TPC)
- D. IBM System Storage Multilevel Grid Access Manager Software

Answer: B

Question: 3

The DS5000 controller has been designed to preserve customer investment. One of the key features providing this is?

- A. Use of SAS technology
- B. Possibility to interchange hosts controller cards when new models are available
- C. WAFL file system
- D. Support of Intermix SAS and FC drive types

Answer: B

Question: 4

Availability, Security, Retention and Compliance are part of the _____ infrastructure?

- A. Data
- B. Information

- C. IBM OnDemand
- D. Go Green Initiative

Answer: B

Question: 5

The DS3200 has what type of host connectivity?

- A. Fibre
- B. SAS
- C. iSCSI
- D. SATA

Answer: B

Question: 6

A customer is concerned about the rebuild time of the larger SATA drives available. What RAID type would you recommend to alleviate this concern?

- A. 1
- B. 3
- C. 5
- D. 6

Answer: D

Question: 7

A business partner sales person is proposing an IBM DS5300 storage solution to an installed EMC customer. What is the IBM resource with the most knowledge that can assist the business partner against EMC?

- A. FTSS
- B. IBM Client Rep
- C. IBM Briefing Center
- D. Techline or CompeteLine

Answer: D

Question: 8

A prospective customer is interested in intermixing drives on their new DS5000. What type of drives will work in their new system?

- A. Fiber Channel and ATA
- B. Fiber Channel and SCSI
- C. EIDE, SAS and SATA
- D. Fibre Channel and SATA

Answer: D

Question: 9

The customer has a number of older version servers running UNIX operating systems and needs to confirm that the DS5000 will support them. What IBM resource would you rely on to help determine if your solution is supported?

- A. IBM Almaden Research Center
- B. IBM Headquarter Office Armonk, NY
- C. IBM System Storage Executive Briefing Center
- D. IBM System Storage Interoperation Center / Systems Lab

Answer: D

Question: 10

Storage Manager 10.10 provides the following number of partitions for the DS4800, DS4700, and DS4200 respectively?

- A. 512, 256, 128
- B. 512, 128, 128
- C. 256, 128, 64
- D. 128, 128, 64

Answer: B

Question: 11

A development company will concentrate all their VMWare servers on a single data storage device. What will be a determining factor in their decision to acquire a DS5000?

- A. Amount of disk up to 256 TB
- B. Configuration flexibility and easy LUN tuning
- C. 56 available host port connections

D. Support for intermixing FC and SATA drives

Answer: B

Question: 12

What is the value proposition of IBM's System Storage Strategy?

- A. Recovery Services, Business Continuity, Infrastructure Simplification
- B. Business Impact Analysis, Service Level Agreement, Recovery Point Objective
- C. Information Infrastructure security, retention, availability and compliance.
- D. Hierarchical Storage Management, Disaster Recovery Management, Data Migration

Answer: C

Question: 13

Which of the following implements "in-band" storage virtualization technology via an appliance?

- A. EMC (Invista)
- B. Cisco MDS 9513
- C. DS5300 with IBM Commonstore
- D. IBM (SAN Volume Controller)

Answer: D

Question: 14

Which RAID level would be best suited on a DS5300 in an environment where 750GB SATA drives are exclusively used and data integrity is of the utmost importance?:

- A. RAID 3
- B. RAID 6
- C. RAID 10
- D. RAID 0

Answer: B
