Question: 1

A customer wants to add a Linux partition to their IBM eServer i5 520 using LPAR and virtual storage. Which of the following products should be used as the lowest cost alternative to configure and manage the Linux partition?

- A. iSeries Navigator
- B. Hardware Management Console
- C. i5/OS Virtual Partition Manager
- D. IBM Virtualization Engine Console

Answer: C

Question: 2

A customer is comparing proposals for either a new IBM eServer i5 520 or a used iSeries Model 820. The 820 has sufficient CPW performance to handle the workload and includes a migration tower where most of the feature cards and disk are housed. Which of the following is a critical factor for this customer's decision?

- A. The used machine will not be supported by IBM Service.
- B. The 820 is upgradeable to an eServer i5 520 Value Edition.
- C. Software Subscription is not available for i5/OS V5R3 on the i820.
- D. The disks and feature cards in the migration tower are older and slower technology.

Answer: D

Question: 3

Which of the following is an iSeries architectural feature that provides a significant business benefit?

- A. TIMI allows implementation of both server and Java-based applications.
- B. 64-bit computing enables 32-bit applications to be emulated in 64-bit mode.
- C. Security and database are fully integrated into i5/OS for seamless operation.
- D. Single level storage provides hierarchical data management between memory, disks, and tape.

Answer: C

Question: 4

A customer has an installed iSeries Model 270-2250 (370/30 CPW) that meets their current needs. The customer wants to add a low-volume Web application using WAS-Express. Which of the following provides the lowest-cost solution?

- A. Purchase an IBM eServer i5 520 Express
- B. Upgrade to an IBM eServer i5 520 Value
- C. Purchase an IBM eServer i5 520 Enterprise

2

D. Upgrade to an IBM eServer i5 520 Enterprise

Answer: A

Question: 5

If all other decision factors are equal, which of the following is the most important to the customer when comparing the iSeries solution versus other server platforms?

- A. Database integration
- B. Faster speed of operation
- C. Scalability provided
- D. Adherence to industry standards

of the iSeries will be the most important to the customer when comparing the iSeries solution versus other server platforms?

employees.

Answer: B

Question: 6

When comparing an iSeries solution to other server platforms, which of the following is an advantage of the iSeries solution?

- A. Rack mount capability
- B. On/Off CoD capability
- C. Larger capacity
- D. Greater number of users

of the following is an advantage of the iSeries solution?

Answer: B

Question: 7

A prospect perceives a problem with the current solution. Which of the following is an appropriate response?

- A. Explain that Windows is a better solution
- B. Explain that Linux is a better solution
- C. Explain that the iSeries is a better solution
- D. Explain that the iSeries is a better solution

the following is an appropriate response?

Answer: D
