

00M-236

IBM Tivoli Storage Sales Mastery Test v3

Document version: 8.04.11

Important Note About 00M-236 PDF

techeXams' **00M-236 PDF** is a comprehensive compilation of questions and answers that have been developed by our team of certified professionals. In order to prepare for the actual exam, all you need is to study the content of this exam questions. An average of approximately 10 to 15 hours should be spent to study these exam questions and you will surely pass your exam. It's our guarantee.

Question: 1

SVC (SAN Volume Controller) can provide which of the following?

- A. Can provision storage but has to take the client down to do it.
- B. Can increase performance by using the EMC pass through driver.
- C. Reduce Storage costs.
- D. Apply Time Finder to different vendors disk sub-systems.

Answer: C

Explanation:**Reference:**

<http://www-03.ibm.com/systems/uk/storHYPERLINK> "http://www-03.ibm.com/systems/uk/storage/software/virtualization/svc/"age/software/virtualization/svc/
(See the heading in grey)

Question: 2

Which feature does TSM (Tivoli Storage Manager) NOT provide?

- A. Backup and Recovery
- B. Device mapping
- C. Archive and Retrieve
- D. HSM (Hierarchical Storage Manager)
- E. Content management

Answer: E

Explanation:

TSM is a storage manager and it does not provide content management. For content management, IBM offers DB2 content manager or IBM content manager. Logically a storage manager is not a content manager, it is a storage manager that provides device mapping, backup and recovery, archive and retrieve and since TSM is an IBM product it has a flavor that provides hierarchical storage manager called TSM HSM as described in the resource below:

http://en.wikipedia.org/wiki/IBM_Tivoli_Storage_Manager

Question: 3

“Near Instant Recovery” provides which of the following?

- A. The ability to restore directly from tape.
- B. The ability to restore directly from disk.
- C. The ability to mount the tape directly to the host.
- D. The ability to mount the disk directly to the host.

Answer: A

Question: 4

“In guest” backup is where TSM (Tivoli Storage Manager) is installed in which of the following?

- A. Physical Server
- B. Logical Host
- C. vSphere Server
- D. ESX server

Answer: C

Question: 5

To move data residing on an SVC (SAN Volume Controller):

- A. The host system will not be affected.
- B. The host system will be affected.
- C. All attached clients must be taken off line.
- D. All SVC attached disks must be IBM.

Answer: A

Question: 6

If your customer wants a Recovery Time Objective of near zero, which product would best suit their requirement?

- A. Reporting and Monitoring
- B. Snapshots
- C. Traditional Backup and Recovery
- D. FastBack for Workstations

Answer: D

Question: 7

Tivoli Storage Manager's Progressive Incremental backup allows you to do what?

- A. Backs up files that change on a daily basis.
- B. Backup full every week with incremental backups every day until the next full is needed.
- C. Backs up all files changed since the last full backup.
- D. Backs up all changed files since the original full backup.

Answer: D

Explanation:

<https://wiki.engr.illinois.edu/display/tsg/Progressive+Incremental+Backups+explained#ProgressiveIncrementalBackupexplained-ProgressiveIncrementalBackupComparedwithOtherBackupTypeHYPERLINK>
"https://wiki.engr.illinois.edu/display/tsg/Progressive+Incremental+Backups+explained#ProgressiveIncrementalBackupexplained-Pro"s

Question: 8

Infrastructure Simplification is provided with SAN Volume Controller in which of the following ways?

- A. Combines IBM only capacity into a single pool.
- B. Uses storage assets more efficiently.
- C. Multiple management points.

D. Capacity purchases can be made more often.

Answer: B

Explanation:

Reference:

http://www.common-romandie.ch/files/pre_2008_10_02_svccustpres-svc43-tpc-sspc-ds.pdf
(slide 9, see san volumen controller, second bulleted point)

Question: 9

What does Recovery Point Objective mean?

- A. How much data can you afford to lose.
- B. How much time can you afford to lose.
- C. How much time data is to be retained.
- D. How much space the data needs in order to be recovered.

Answer: C

Question: 10

Which type of backup is NOT supported with the TSM (Tivoli Storage Manager) both on for Mail and Databases?

- A. Full Backups
- B. Incremental Backups
- C. Hot backups
- D. Synthetic backups

Answer: D

Explanation:

Reference:

<http://searchdatabackup.techtarget.com/tutorial/What-are-synthetic-backups-and-can-you-eliminate-full-backups> "http://searchdatabackup.techtarget.com/tutorial/What-are-synthetic-backups-and-can-you-eliminate-full-backups" iminate-full-backups (4th paragraph)

Question: 11

VMware Consolidated Backup (VCB) provides which of the following?

- A. LAN Free backup
- B. Single data hop
- C. Application aware backup
- D. All of the above.

Answer: A

Explanation:

Reference:

http://www.vmware.com/ap/products/datacenter-virtualization/vsphere/consolidated-backup/cb_overview.html (Overview, see the first sentence)

Question: 12

TSM (Tivoli Storage Manager) for Virtual Environments does NOT provide which of the following?

- A. The ability to do near instant recovery.
- B. The ability to restore a single file.
- C. The ability to restore an entire host.
- D. The ability to restore a single mailbox in exchange via the vSphere server.

Answer: C

Question: 13

Progressive Incremental does which of the following?

- A. Backup for Mail
- B. Incremental plus full backup.
- C. Incremental forever
- D. HSM

Answer: C

Question: 14

Which product already has the TSM (Tivoli Storage Manager) technology already built in and therefore is free of charge?

- A. DB2
- B. Group Wise
- C. Novell
- D. Sametime Connect

Answer: A

Question: 15

Which product does NOT belong to the data protection family of products?

- A. Tivoli Productivity Center
- B. Tivoli Storage Manager
- C. Tivoli Storage Manager FastBack
- D. Flash Copy Manager

Answer: A

Question: 16

SAN Volume Controller provides "Data Mobility" by which of the following?

- A. Data Movement from user to user.
- B. Data movement with a small amount of downtime.
- C. Data movement with required downtime.
- D. Allowing the movement of data without taking the application down.

Answer: D

Explanation:**Reference:**

<http://rogerluethy.wordpress.com/2012/06/04/ibm-system-storage-san-volume-controller-software-v6-4-0-improves-storage-efficiency/> (second bulleted point)

Question: 17

Recovery Time Objective means what?

- A. How much data can you afford to lose?
- B. How much time can you afford to lose?
- C. How much time data is to be retained.
- D. How much time data is to be retained.

Answer: B

Question: 18

If your customer wants a Recovery Point Objective of near zero, which product would best suit their requirement?

- A. TSM Client
- B. TSM Fastback BMR
- C. CDP
- D. Deduplication

Answer: B

Explanation:

Reference:

ftp://aix.boulder.ibm.com/software/it/events/doc/ISM-WorldTour_and_Tivoli_UserGroup/Storage_Management/TSM_FastBack.pdf (slide 3)

Question: 19

SVC (SAN Volume Controller) provides Easy Tier which provides the ability to do which of the following?

- A. Increase response time.

- B. Re-distribute active data across multiple tiers of storage class based on workload characteristics.
- C. Ability to take inactive data and write it to tape.
- D. Ability to write data to only IBM disks.

Answer: B

Explanation:

Reference:

<http://pic.dhe.ibm.com/infHYPERLINK>
"http://pic.dhe.ibm.com/infocenter/svc/ic/index.jsp?topic=/com.ibm.storage.svc.console.doc/svc_easy_tier_volmigrconsider.htm"ocenter/svc/ic/index.jsp?topic=%2Fcom.ibm.storage.svc.console.doc%2Fsvc_easy_tier_volmigrconsider.html

Question: 20

Fastback does NOT provide which of the following?

- A. Reduce the amount of data at risk to almost zero.
- B. Reduce the time to recover any amount of data to just minutes.
- C. Tape support.
- D. Provide a comprehensive backup and recovery solution for SMB and remote/branch offices.

Answer: A

Question: 21

Unified Recovery is where all TSM (Tivoli Storage Manager) products have which of the following?

- A. Multiple agents
- B. Management Issues
- C. Application awareness during backup.
- D. A single User Interface.

Answer: B

Question: 22

Tivoli Storage Fastback supports which of the following Operating Systems?

- A. AIX.
- B. SUN Solaris.
- C. Linux
- D. MacOS

Answer: C

Explanation:

Reference:

<http://www-01.ibm.com/software/tivoli/products/storage-mgr-fastback-center/>
(see the last bulleted point on the page)

Question: 23

Which product is NOT a member of the TSM (Tivoli Storage Manager) family?

- A. Tivoli Provisioning Manager
- B. Fastback
- C. Flash Copy Manager
- D. Fastback for Workstations
- E. TSM for Mail

Answer: A

Question: 24

SVC (SAN Volume Controller) allows you to do which of the following?

- A. Replication to only the same type of disks.
- B. Use different multipath driver for all arrays.
- C. Use a common replication API, SAN-wide, that does not change as storage hardware changes.
- D. Provide vision into the SharePoint environment.

Answer: C

Explanation:**Reference:**

<http://www.storagevision.cz/soubory/21cz.pdf> (search for common replication api)

Question: 25

VMware Consolidated Backup (VCB) requires which of the following?

- A. "In Host" Installation
- B. Additional data hop.
- C. Application Integration to connect to DB2.
- D. All of the above.

Answer: B

Explanation:**Reference:**

ftp://ftp.software.ibm.com/software/au/downloads/pulse_ANZ/sm/Session9.pdf
(slide 12, Cons)

Question: 26

The Unified Recovery Strategy does NOT include which of the following?

- A. New, built-in reporting and monitoring.
- B. Integration of TSM, FastBack and FastBack for Workstations.
- C. Streamlined TSM Admin Center .
- D. Integration of Tivoli Provisioning Manager.

Answer: D

Question: 27

TPC does NOT allow you to do which of the following?

- A. Provide analytic reporting.
- B. Improve administrator efficiency & storage utilization.
- C. View only IBM disk.
- D. Reduce complexity of multi-vendor environments

Answer: C

Question: 28

HSM (Hierarchical Storage Manager) provides which of the following?

- A. Automatic deletion of temporary files.
- B. Migration of data from active disk to secondary disk.
- C. Migration from tape to disk.
- D. Uses more space on primary disk.

Answer: B

Explanation:

Reference:

<http://searchstorage.techtarget.com/definition/HSM>

Question: 29

TSM (Tivoli Storage Manager) uses the vStorage API which provides which of the following?

- A. LAN only backup.
- B. Double data hop.
- C. Automatic discovery of VMware hosts.
- D. Direct integration into the applications running inside the VMware host.

Answer: C

Question: 30

An Archive is which of the following?

12

- A. Just another backup.
- B. A separate product.
- C. A point in time copy of data kept for a long period of time.
- D. A copy of data kept on the local server.

Answer: C

Question: 31

Tivoli Storage Fastback can do which of the following?

- A. Backups on AIX.
- B. Can recover SUN Solaris.
- C. Backup and recovery from tape.
- D. Can do "near instant recovery".

Answer: D

Question: 32

VMware "Logical Hosts" can NOT be recovered to which of the following?

- A. Physical Server
- B. Logical Server
- C. A different Server on different Hardware.
- D. A XEN server

Answer: D

Question: 33

Unified Recovery Management DOES NOT includes:

- A. TSM
- B. TSM FastBack
- C. TSM FastBack for Workstations
- D. TSM EE

E. SAN Volume Controller

Answer: E

Explanation:

Reference:

<http://www-01.ibm.com/software/tivoli/solutions/unified-recovery/>

Question: 34

A benefit of “in guest” backup is what?

- A. Multiple agents
- B. Robust Management
- C. Application awareness during backup.
- D. Central point of control.

Answer: A

Question: 35

TSM (Tivoli Storage Manager) offloads the backup workload from the virtual machines and production ESX hosts to which of the following?

- A. vStorage backup server
- B. Proxy Host
- C. Proxy Sever
- D. Physical Host

Answer: A

Explanation:
