## Question: 1

Greg has added his favorite text editor to the Domino Designer IDE using the Tool>Add Tool menu option. He wanted to be able to access the text editor from anywhere in Domino Designer, but it is only available as a Tools menu option when he is in a Forms List. Which one of the following can Greg do to have the editor appear on the Tools menu, regardless of which design element he is working with?

- A. Change the Tool Context for the Text Editor to "All".
- B. Change the Tool Visibility for the Text Editor to "All".
- C. Change the Tool Context for the Text Editor to "Always".
- D. Change the Tool Visibility for the Text Editor to "Always".

Answer: C

## Question: 2

Kayla has created a form that uses a Data Connection Resource to link some of the form fields to an external relational database. She has defined the Customer Number field as a key field. When a user performs an update using the form, all external database fields are updated except for the Customer Number. DEC's are installed. Which one of the following should she do so that the Customer Number field can also be updated?

- A. Nothing. Key fields cannot be updated.
- B. Make the Customer Number field an editable field.
- C. Reinstall the ODBC driver used to connect to the external database.
- D. Ensure that the Data Connection "Block key field updates" option is not selected.

Answer: D

## Question: 3
