

646-588

(Advanced Wireless LAN for Account Managers)

Document version:1 04 11

Important Note About 646-588 PDF

techeXams' **646-588 PDF** is a comprehensive compilation of questions and answers that have been developed by our team of certified professionals. In order to prepare for the actual exam, all you need is to study the content of this exam questions. An average of approximately 10 to 15 hours should be spent to study these exam questions and you will surely pass your exam. It's our guarantee.

Question: 1

Which security protocol is both an inherently flawed, one-way, device-centric form of authentication and a 40-bit encryption key?

- A. Secure Socket Layer
- B. Hypertext Transfer Protocol over Secure Socket Layer
- C. Secure Shell Protocol
- D. Wired Equivalent Privacy

Answer: D

Question: 2

When building an IT case for Company.com, you must address security in addition to which three other customer needs? (Choose three.)

- A. Cost-effective network
- B. Easy installation
- C. Flexibility
- D. Increased productivity
- E. Interoperability
- F. Scalability

Answer: B, C, E

Question: 3

What is the best description of the Cisco Unified Wireless Network?

- A. It enables public sector agencies to deploy a secure, scalable, broadband network that integrates wired and wireless IP infrastructures, delivering network intelligence and applications for mobile users across a city.
- B. It is a powerful solution for enterprises that want to combine the best elements of wireless and wired networking to deliver scalable, manageable, and secure wireless LANs with a low total cost of ownership.
- C. It uses a single network infrastructure for the transmission of data, voice, and video traffic, delivering the business benefits of a converged, wireless network to enterprise-level organizations.
- D. It is the only unified wired and wireless solution for service providers in the industry. It is cost-effective and addresses the WLAN security, deployment, management, and control issues facing service providers today.

Answer: B

Question: 4

What are the three best responses to a director of a healthcare facility whose primary concern is mitigating risks, such as medical record errors, malpractice suits, and poor bedside care? (Choose three.)

- A. A Cisco WLAN enables real-time tracking of important equipment, supplies, and key personnel.
- B. A Cisco WLAN minimizes the risk of errors by automating tracking of medications, supplies, and personnel.
- C. A Cisco WLAN can extend to each patient room, allowing tracking of patient information at the bedside at all times.
- D. A Cisco WLAN enables patient medication to be tracked at the bedside, which minimizes the risk of errors in dosage or identification.
- E. A Cisco WLAN can be used to monitor vital signs in each patient room. This would reduce the cost and time of manual tracking.
- F. A Cisco WLAN can ensure secure intrusion protection throughout the hospital campus.

Answer: B, C, D

Question: 5

Which Cisco technology can be used to create a detailed wireless LAN design, including access point placement, configuration, and performance estimates?

- A. Cisco Network Admission Control Appliance
- B. Cisco wireless location appliance
- C. Cisco wireless LAN controller
- D. Cisco Wireless Control System

Answer: D

Question: 6

What are three capabilities of a wireless LAN? (Choose three.)

- A. Provides wireline equivalent security
- B. Makes cabling obsolete
- C. Interacts with wired LAN systems that are already in place
- D. Communicates with repeater access points
- E. Requires little to no centralized management
- F. Boosts productivity by up to 10 percent

3

Answer: A, C, D

Question: 7

Cisco offers a variety of options for installing or improving network security on the WLAN. Which two recommendations should be made to a customer who wants a Cisco WLAN security solution? (Choose two.)

- A. Enable Wi-Fi Protected Access functionality for encryption
- B. Enable Triple Data Encryption Standard functionality for encryption
- C. Deploy 802.1x for 802.11 standards for authentication
- D. Deploy a Service Set Identifier for authentication
- E. Deploy a Wireless Equivalent Privacy for authentication

Answer: A, C

Question: 8

Which two vertical segments actively use the adoption of 802.11 technology as a competitive differentiator? (Choose two.)

- A. Education uses the adoption of 802.11 technology to attract more students. Wireless networking creates a competitive advantage over schools and colleges that cannot provide access anytime, anywhere.
- B. Government uses the adoption of 802.11 technology to attract more residents to individual localities. Wireless networking creates a competitive advantage over municipalities that cannot provide access anytime, anywhere.
- C. Healthcare uses the adoption of 802.11 technology to attract more patients. Wireless networking creates a competitive advantage over hospitals that cannot provide ready access to patient data.
- D. Hospitality uses the adoption of 802.11 technology to attract more guests. A wireless network attracts tradeshow exhibitors and conference coordinators, and it increases customer loyalty for hospitality and hotel establishments.
- E. Retail uses the adoption of 802.11 technology to attract more customers. Wireless networking creates a competitive advantage over stores that cannot provide accuracy of inventory and pricing.

Answer: A, D

Question: 9

Which method was devised to mitigate the 802.11 security issues and requires the next-

4

generation Advanced Encryption Standard?

- A. Temporal Key Integrity Protocol
- B. Wired Equivalent Privacy
- C. Extensible Authentication Protocol
- D. Wi-Fi Protected Access 2

Answer: D

Question: 10

Which three facts can be used to correctly describe the proven customer track record of Cisco Systems? (Choose three.)

- A. Cisco has more than 70,000 Cisco wireless LAN customers worldwide.
- B. Cisco has deployed more than 2.1 million Cisco access points worldwide.
- C. Cisco has deployed the second-largest wireless network, with 5,000 dual-band access points.
- D. Cisco has been ranked as one of the top global providers of wireless LAN solutions by InformationWeek 500.
- E. Cisco has received two IEEE Corporate Innovation Recognition awards.
- F. Cisco has developed products that are used by 95 percent of Fortune 500 companies.

Answer: A, B, F

Get Full Version of Exam 646-588 PDF Q&A

techeXams presents authentic, genuine and valid study material, which promise 100% success in very first attempt. To take optimal results for 646-588 exam, you need to buy full version of 646-588 question and answer. An average of approximately 10 to 15 hours should be spent to study these exam questions and you will surely pass your exam. So come join us and quench your thirst for knowledge.
