Question: 1

A customer is planning protection for their WLAN. Part of their basic plan is to use a closed system. Which statement describes a closed system?

- A. SSID is not broadcast.
- B. IPsec is implemented.
- C. WEP encryption is used.
- D. Only specific MAC addresses have access to the WLAN.

Answer: A

Question: 2

A customer is setting up their WLAN 2300 series to provide security. They have an existing PKI environment in place, and would like to leverage the existing environment. Which supported authentication/encryption method will meet this requirement?

- A. PEAP
- B. EAP-TLS
- C. EAP-MD5
- D. WPA-PSK

Answer: B

Question: 3

A customer is using the WMS 2300 planning tool to plan wireless coverage for a site. An important part of this configuration is properly configuring the layout. What is the most important consideration when configuring the layout using the WMS planning tool?

- A. the location of the APs
- B. the number of security switches
- C. the proper scaling of the document
- D. a location of the seed Wireless Security Switch

Answer: C

Question: 4

WLAN management system 2300 allows you to create a network plan. This plan can optionally be saved into a standard format. Which program is used to view a network plan?

- A. Text Editor
- B. Adobe Acrobat
- C. Microsoft PowerPoint
- D. Standard web browser

Question: 5

A customer is setting up a WLAN and they need to provide for encryption and authentication/encryption.

- A. PEAP
- B. EAP-TLS
- C. EAP-MD5
- D. MAC authentication

Answer: D

Question: 6

The WLAN 2300 series supports transparent roaming across a mobility domain, which allows for the following benefits of a mobility domain.

- A. All APs broadcast the same SSID
- B. A mobility domain can span multiple WSSs
- C. WMS 2300 manages the mobility domain
- D. All WSSs must be connected to the same WMS

Answer: A, B

Question: 7

All communication between the WLAN 2300 series is encrypted and managed by the WMS 2300. Which of the following is not supported, including all legacy AP to join the mobility domain?

- A. WEP
- B. AES-CCMP
- C. HMAC-MD5
- D. 802.1X/EAP

Answer: B, D

Answer: B, C
