Question: 1

A Nortel Business Communications Manager 50 (BCM50) installation requires music and paging. The Nortel BCM50 has a music jack. Rather than using the music jack, what is another way in which music and paging can be connected?

- A. RJ21 telephony connector
- B. set screws
- C. the front panel
- D. RJ11 jack on chassis

Answer: A

Question: 2

Which statement about installing a Nortel Business Communications Manager 50 (BCM50) expansion unit is true?

- A. An authorization code to enable the expansion unit is not required.
- B. Before installing the BCM50 expansion unit, first install the MBM in it.
- C. A BCM50 expansion unit can only be installed in an equipment rack.
- D. A 20 m cable can be used to connect the expansion unit and main unit.

Answer: B

Question: 3

You are installing a Nortel Business Communications Manager 50 (BCM50) system at a customer's site. You are currently in the process of configuring a DTM in an expansion unit, but you are unable to do so. What is required to do this?

- A. the DTM connected to the network
- B. a keycode that includes the expansion port authorization code to enable the expansion unit
- C. the expansion unit connected to the Nortel BCM50 with a cable no longer than one meter
- D. the expansion unit connected to the Nortel BCM50 with a cable no longer than three meters

Answer: B

Question: 4

You have defined two Nortel Business Communications Manager 50 (BCM50) systems in Element Manager. You want to rename both BCM50 systems, so they appear in Element Manager as "Toronto" and "Ottawa", but you only see the IP address of each BCM50. Which part of Element Manager will you use to do this?

- A. Title Bar
- B. BCM Monitor
- C. Administration task panel
- D. Network Element navigation panel

2

Answer: D

Question: 5

You have developed a Nortel Communications Manager 50 (BCM50) and you want to install it on a USB storage device. Which file system should you use on the storage device. Which of the following is correct?

- A. NTFS
- B. FAT16
- C. FAT32
- D. MS Windows 2000

communications manager 50 (BCM50) can be installed on a PC and can load on the USB

Answer: C

Question: 6

Which statement about target lines is true?

- A. Target lines are used to route calls to a specific extension.
- B. Target lines can be used to route calls to a specific extension.
- C. For a BCM50 configuration, target lines are typically assigned to all telephone DNs.
- D. Multiple appearances can be assigned to a target line so more than one call can be routed to the same extension.

target lines (used for BCM50) target

target lines are typically assigned to all telephone DNs. more than one call can be routed to the same extension.

Answer: D

Question: 7

The primary management interface for the Nortel Communications Manager 50 (BCM50) is Element Manager for Communications Manager (EMCM).

Element Manager for Communications Manager (EMCM) is used to manage the BCM50. Which of the following is not a component of EMCM?

- A. Element Manager for Communications Manager (EMCM)
- B. BCM Monitor for Communications Manager (BCMCM)
- C. Nortel BCM50 defined as a target line
- D. Nortel BCM50 defined as a target line

communications manager 50 (BCM50) requires the Element Manager for Communications Manager (EMCM) to manage the BCM50.

Answer: D
