## Question: 1

You want to configure Network Connect to allow users to connect through a tunnel, connect to hosts on the same subnet as their local adapter, and shut down any attempt to extend the network boundaries. How do you proceed?

- A. Enable split tunneling.
- B. Disable split tunneling.
- C. Enable split tunneling with route change monitor.
- D. Allow access to local subnet with route change monitor.

Answer: D

## Question: 2

Which three authentication servers are included with a baseline license? (Choose three.)

- A. NIS
- B. ACE
- C. SAML
- D. LDAP
- E. SiteMinder

Answer: A, B, D

## Question: 3

You create a set of role mapping rules. You select "Merge settings for all assigned roles." The second role mapping rule has the "Stop processing rules when this rule matches" option selected. A user logs in that matches the first three rules. What happens?

- A. This is not a valid combination. The system displays an error message and does not update the configuration.
- B. The merge settings override the stop processing option. The user matches all three roles and merging follows the standard merging criteria.
- C. The Stop rule prevents any more rule matching after checking the second rule. The merge option only merges the roles of the first two rules following the IVE's built-in permissive merging rules.
- D. The Stop rule prevents any more rule matching after checking the second rule. The user now just matches the second rule. The merge option is overridden and the user is given only the privileges defined by the second rule.

Answer: C

Question: 4

When using the J-SAR tool to verify that the loopback addresses

- A. HOSTS file
- B. ARP cache
- C. LMHOSTS file
- D. local route table

Answer: A

Question: 5

What is Cache Clean

- A. to prevent user
- B. to remove cont
- C. to remove Web
- D. to determine w

Answer: B

Question: 6

Which role-based session allows a user to connect from different devices?

- A. roaming session
- B. persistent session
- C. persistent password
- D. browser request

Answer: A
