- C. By running the Create Inbound Whse. Request function from the production order.
- D. By running the Create Transfer Order function from the production order.

Answer: B,C,

Question: 8

You are a consultant implementing Microsoft Dynamics NAV 2009. You are explaining the concept of netting to your client's production planner. For this discussion, you and the planner have agreed to assume a production forecast of 500 bikes for a particular month. You then introduce two scenarios for sales orders for the bikes in that month. For the first scenario, orders are received for 400 bikes. For the second scenario, orders are received for 650 bikes. Based on the sales orders, the planner wants to know the impact the production forecast has on gross requirements. Considering sales orders, how does the production forecast affect gross requirements for each scenario?

- A. Scenario 1 = 100; Scenario 2 = 0
- B. Scenario 1 = 400; Scenario 2 = 650
- C. Scenario 1 = 500; Scenario 2 = 500
- D. Scenario 1 = 900; Scenario 2 = 1,150

Answer: A

Question: 9

What activities might be performed using Finished Production Orders? Choose the 3 that apply.

- A. Standard, expected, and actual costs of a production order may be reviewed using the Production Order Statistics window.
- B. Production order ledger entries may be reviewed for information regarding quantity, work centers, and machine centers.
- C. Additional activity may be posted to a finished production order after changing the status to Allow Posting.
- D. In a make-to-order environment, a finished production order may be selected as a template for creating new production orders using the Copy Prod. Order Document function.

Answer: A,B,D,
